If the shipping timespan ends on a Sunday, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular Carrier/Service supports Sunday delivery 1166. If the particular Carrier/Service does not support Sunday delivery, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0313] at page 62, lines 18-23 of the substitute specification** previously filed with this application, with the following amended paragraph:

**[0313]** The System then (continuing after process 1167, or if the answer to test process 1168 is "no" (shipping timespan does not end on a Sunday)) determines whether there is a business day delivery within the shipping timespan 1169. If so, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular Carrier/Service supports business day delivery 1170. If the particular Carrier/Service does not support business day delivery, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

If so, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular Carrier/Service supports E-Mail delivery notification 1173. If the particular Carrier/Service does not support E-Mail delivery notification, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0317] at page 63, lines 8-14 of the substitute specification** previously filed with this application, with the following amended paragraph:

[0317] Continuing with FIGS. 39A through 39C, the System then (continuing after process 1174, or if the answer to test process 1172 is "no" (e-mail delivery notification not selected)) determines whether the Shipper has requested verbal delivery notification 1175. If so, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular Carrier/Service supports verbal delivery notification 1176. If the particular Carrier/Service does not support verbal delivery notification, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0319] at page 63, lines 18-23 of the substitute specification** previously filed with this application, with the following amended paragraph:

If so, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular Carrier/Service supports guaranteed delivery times 1181. If the particular Carrier/Service does not support guaranteed delivery times, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0321] at page 63, line 27 through page 64, line 5 of the substitute specification** previously filed with this application, with the following amended paragraph:

**[0321]** Continuing with FIGS. 39A through 39C, the System then (continuing after process 1182, or if the answer to test process 1180 is "no" (guaranteed delivery time not selected)) determines whether the Shipper has requested a "Call for Pickup" shipping location 1184. If so, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular Carrier/Service supports "Call for Pickup" services 1185. If the particular Carrier/Service does not support "Call for Pickup" services, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0323] at page 64, lines 9-15 of the substitute specification** previously filed with this application, with the following amended paragraph:

**[0323]** Continuing with FIGS. 39A through 39C, the System next (continuing after process 1186, or if the answer to test process 1184 is "no" (selected shipping location is not "Call for Pickup")) determines whether the Shipper has requested a "Residential Delivery" 1187. If so, the System accesses the Carrier Database (1404a through 1404n) to determine whether the particular

Carrier/Service supports "Residential Delivery" services 1188. If the particular Carrier/Service does not support "Residential Delivery" services, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0325] at page 64, lines 19-26 of the substitute specification** previously filed with this application, with the following amended paragraph:

**[0325]** The System then (continuing after process 1189, or if the answer to test step 1187 is "no" (residential delivery no selected)) determines whether the Shipper has requested a "Loss Protection" services 1190. If the answer to test process 1190 is "no" (Loss Protection not selected), then the System proceeds with the next Carrier/Service in the delivery rate set 1157. If the particular Carrier/Service does not support "Loss Protection" services, then the particular Carrier/Service is eliminated from the delivery rate set 1177 and the System proceeds with the next Carrier/Service in the delivery rate set 1157. The System then determines 1192 whether the requested loss protection is within the service's range; if not, the System proceeds with the next Carrier/Service in the delivery rate set 1157.

Please replace **paragraph [0422] at page 89, lines 5-12 of the substitute specification** previously filed with this application, with the following amended paragraph:

In such a case, the System asks the User if the User want to be notified when the identified package is delivered

2090. The System provides the User with input fields to register to receive, and have sent, e-mail notification after the package is delivered. A user can enter up to three names, 2091, 2093 and 2095, and up to three e-mail addresses, 2092, 2094, and 2096, to receive the delivery confirmation. The User submits the e-mail notification (with message 2097) by clicking on the Submit button 2036-1.
